

Human Land Issues

Suggested questions

1. The interaction between living things and non-living things is known as
A. Intraspecific B. **Ecology** C. Biotic D. Abiotic
2. The physical environment occupied by plants and animals is known as
A. **Biome ecosystem**
B. Interspecific
C. Biotic
D. Abiotic
3. The relationship between individual organism of the same species is known as interspecific effect.
A. True
B. **False**
4. The type of vegetation succession that is initiated in new, fresh and biologically unmodified site is called.....
A. **Primary succession**
B. Secondary succession
C. Allogenic succession
D. Autogenic Succession
5. Autogenic Succession is driven by.....
A. **Biotic Components of the ecosystem**
B. Abiotic components of the ecosystem
C. Primary succession
D. Secondary succession
6. All the following are the effects of environmental pollution **except**
A. Loss of lives
B. Loss of biodiversity
C. **Generation of wind energy**
D. Ozone layer depletion
7. The ozone layer is located in the
A. Troposphere
B. **Stratosphere**
C. Mesosphere
D. Thermosphere

8. The natural resources are culturally specific.
- A. **True**
 - B. False
9. The only planet that support the existence of live is the
- A. Mercury
 - B. Venus
 - C. **Earth**
 - D. Mars
10. The largest planet in the solar system is the
- A. Neptune
 - B. Saturn
 - C. Mars
 - D. **Jupiter**
11. The inner planet classified based on rocks and metals are.....
- A. Mercury, Venus, Jupiter and Earth
 - B. Mercury, Venus, Jupiter and Mars
 - C. Mercury, Venus, Jupiter and Neptune
 - D. **Mercury, Venus, Mars and Earth**
12. The planets regarded as modern planets are.....
- A. Uranus and Jupiter
 - B. Uranus and Mercury
 - C. Uranus and Mars
 - D. **Uranus and Neptune**
13. The rotation of the earth causes.....
- A. Composition of the Earth
 - B. Composition of the planets
 - C. **Day and night**
 - D. Global season
14. The belt which lies between mars and Jupiter is known as
- A. Kuiper belt
 - B. Dark Planet Belt
 - C. **Asteroid belt**
 - D. Equator belt
15. Which ocean is the Largest of all.....?
- A. Atlantic ocean

- B. Indian ocean
- C. Pacific ocean**
- D. Arctic ocean

16. How many continents do we have.....

- A. 7**
- B. 5
- C. 6
- D. 4

17. The most important element of climate is

- A. Air pressure
- B. Solar radiation**
- C. Humidity
- D. Snow

18. The instrument used to measure relative humidity is called.....

- A. Rain gauge
- B. Barometer
- C. Anemometer
- D. Hygrometer**

19. The side of a mountain which receives very little rainfall is called **LEEWARD SIDE**

20. The largest plateaus are normally called **CONTINENTAL PLATEAUS**
