

EBS 135 QUIZ 2

Answer all the questions

QUESTION 1 Read the paragraph below and thoroughly punctuate it.

“Headache duration is also important to elicit. Headaches that have been present for months or years are almost never sinister. Whereas new onset headache especially in the elderly is more of a concern in a patient over 60 years with head pain localized to one or both temples, scalp tenderness or jaw claudication temporary (arteritis, p 1042) should be considered.”

[Culled from Davidson's Principles and Practice of Medicine, 23rd Edition, Elsevier]
